

COSSTRA® Candle & Diffuser Collections

*COSSTRA DUAL® Collections,
extraordinary decorative pieces*

An artisanal glassmaking technique that creates a striking sense of depth, elevated by Pure Crystal and White Opaline.

All materials used are natural and environmentally friendly.

Elegant, sophisticated fragrances take you on a visual and olfactory journey filled with mystery and emotion.

Our fragrances are crafted in Grasse, in the South of France - the world capital of perfume.

Craftsmanship & Design

*COSSTRA® collections : a subtle blend
of craftsmanship and design.*

In 2016, founder and designer Fabrice COSSTRA combined his expertise in cosmetics and perfumery with his design skills to create and develop modern, innovative collections of candles and diffusers, based on his world-exclusive concept : the **DUAL SYSTEM®**.

Our Cristallin pieces, a refined alternative to traditional crystal

Admired for its refined qualities, Cristallin glass lies at the heart of high-end glassmaking.

Crystalline, a sophisticated alternative to traditional crystal, embodies excellence in the world of glassware.

This exclusive formulation gives crystalline a clarity and brilliance comparable to that of crystal.

Unique in the world ! Our DUAL LED® System

*Our unique ranges of candles and diffusers
are backlit by different LED systems
specially designed for our products.*

Upper part

- > Scented wax
- > Or diffuser liquid

Lower part

Our LED system in 3 solutions

- > **A.** Stand-alone magnetic LED module
- > **B.** Lacquered wooden LED bases
(example opposite)
- > **C.** Lacquered wooden LED totem

A : Stand-alone magnetic LED module that attaches to the inside of the lower part of our candles and diffusers

Comes with all products except when an LED Base or LED Totem is provided.

8-hour battery life, rechargeable via USB cable.

A remote control allows you to change the color scheme and turn the lights on or off.

Dimensions : H 20mm - Diameter 80mm

B : White or black lacquered wooden LED base on which we place our candles and diffusers.

12-hour battery life, rechargeable via USB cable and can also remain permanently connected.

Dimensions : H 45mm - L 260mm x l 260mm

Finishes :

Black lacquer - BLB
White lacquer - WLB
(PEFC label)

The box contains an LED BASE + an LED + 1 USB charging cable + a remote control to change the color moods and turn it on or off.

C : LED Totem in white or black lacquered wood on which we place our candles and diffusers.

12-hour battery life, rechargeable via USB cable and can also remain permanently connected.

Dimensions : H 1005mm - L 290mm x l 290mm

Finishes :

Black lacquer - BLB
White lacquer - WLB
(PEFC label)

The box contains an LED TOTEM + an LED + 2 USB charging cable + a remote control to change the color moods and turn it on or off.
